PROFESSIONAL SUMMARY

BS Computer Science student with a strong interest in Machine Learning and Artificial Intelligence. Familiar with Python and basic machine learning concepts through academic projects and self-learning. Eager to learn, build practical solutions, and grow as an AI/ML professional.

TECHNICAL SKILLS

Programming: Python

Machine Learning: Supervised Learning, Model Evaluation (Basic)

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn

Tools: Jupyter Notebook, Github, VS Code

Microsoft Office: Microsoft Word, Microsoft Excel, Microsoft PowerPoint

PROJECTS

Exploratory Data Analysis (EDA) on Dataset

- Performed data cleaning and exploratory data analysis using Python, Pandas, and NumPy.
- Identified missing values, duplicate records, and data distributions.
- Generated statistical summaries and visualized key patterns to gain insights from the dataset.

Titanic Dataset Analysis

- Analyzed the Titanic dataset using Python, NumPy, and Pandas.
- Performed data preprocessing, handled missing values, and conducted statistical analysis.
- Applied feature engineering, filtering, grouping, pivot tables, and outlier detection to extract meaningful insights from the dataset.

EDUCATION

Bachelor of Science in Computer Science (BSCS)
Minhaj University Lahore | 2024 – 2028 (Expected)

Intermediate in Computer Science (ICS)
Himayat-e-Islam Khawateen College, Lahore | 2022 – 2024

LANGUAGES

Urdu (Native), English (Intermediate)
